## Job Posting

### Health, Safety and Environment (HSE) Specialist

Louisville, Kentucky

#### Overview

ISTS is dedicated to providing top tier safety consulting to our over 125 business accounts. We are searching for a Person who is passionate about consulting on health and safety management practices.

#### What You'll Do

The ideal person for ISTS will be located in the greater Louisville area and be able to conduct onsite safety and risk assessments, seminars and training to our customers located across the USA. Additionally you will:

- Conduct onsite risk evaluation surveys and complete detailed reports to assist our customer in regulatory compliance.
- Assist customers with development and implementation of safety polices, programs and procedures specific to each account & loss exposure.
- Develop and deliver training in a classroom and/or Hands-on setting
- Provide advanced risk management and consultative services to assigned clients.
- Maintain and demonstrate safety management and expertise in areas such as OSHA, ANSI, and NFPA.
- Develop, coordinate, and conduct safety/risk management seminars and training programs
- Develop and execute service proposals and plans to clients.

#### Requirements

- Bachelor's degree required
- Emphasis in Occupational Safety & Health, Engineering, or Physical Sciences preferred
- High level of independence, organization, and self-motivation to work alone for long period of times
- Knowledge of OSHA, ANSI, NFPA Standards, and DOT regulations
- Must have excellent skill sets with all Microsoft office products
- High level of verbal and written communication skills
- Acceptable motor vehicle record for extensive travel (25%) including overnight travel

### **Additional physical requirements and/or environmental conditions not mentioned above:**

- Need to be able to work in a seated position up to 4-8 hours a day, ability to operate a motor vehicle, stand and walk to a significant degree. Stooping and bending is also required for this job.
- Lifting 20 lbs. maximum with some lifting and/or carrying of objects weighing up to 10 lbs.
- Ability to access building roofs and other elevated locations during Safety Inspections Surveys. Must be able to climb stairs and/or ladders.
- Ability to work in outside uncontrolled environmental conditions and ability to work safely in a wide variety of customer environments that may contain physical conditions, such as: exposure to extreme heat or cold, chemicals, electrical current, and moving mechanical parts.

### **What You'll Receive**

- Excellent Salary and benefit package

### **How You'll Apply**
